

Author index to Volume 35, 1998

Key: GE = Guest Editorial; RA = Review Article; OA = Original Article; SR = Short Report; CR = Case Report; PV = Personal View; L = Letter

- Abou-Seif MAM: Oxidative stress of vanadium-mediated oxygen free radical generation stimulated by aluminium on human erythrocytes 254 (OA)
- Abraha HD *see* Stefanis N
- Abu EO: Autoantibodies against thyroid hormones can lead to an erroneous diagnosis and potentially harmful treatment 555 (L)
- Adler M *see* Cotton F
- Aitken DA *see* Wallace EM
- Aitkenhead H *see* McColl AJ
- Akers K *see* Lapsley M
- Al-Jubouri MA: Laparoscopic assisted vaginal hysterectomy versus abdominal hysterectomy 156 (L)
- Al-Khafaji F, Bowron A, Day AP, Scott J, Stansbie D: Stabilization of blood homocysteine by 3-deaza-adenosine 780 (SR)
- Alfayate R *see* Casesnoves A
- Allen KR *see* Nelson JC
- Amado JA *see* Garcia-Unzueta MT
- Anderson RW *see* Baskin LB
- Andrews V *see* Crook M
- Asada Y *see* Kitani M
- Asaoka Y *see* Yoshida H
- Ashby JP *see* Wenham PR
- Ayuk P, Stringfellow H, Donnai P, Beardwell C, Holt A, Laing E: Hirsutism of recent onset with marked hyperandrogenaemia and ovarian hyperthecosis after the menopause 145 (CR)
- Baarsma R *see* Zijlstra WG
- Baker JR *see* Johnson RN
- Barbour H *see* Ryan MF
- Barnes DJ *see* Mattock MB
- Barrington H *see* Lawrence JR
- Barth JH *see* Nelson JC
- Baskin LB, Anderson RW, Charlson JR, Hurt RD, Lawson GM: A solid phase extraction method for determination of nicotine in serum and urine by isotope dilution gas chromatography/mass spectrometry with selected ion monitoring 522 (OA)
- Beardwell C *see* Ayuk P
- Beckett DJ, Gama R, Wright J, Ferns GAA: Renal carcinoma presenting with adrenocortical insufficiency due to a pituitary metastasis 542 (CR)
- Beetham R, Fahie-Wilson MN, Park D: What is the role of CSF spectrophotometry in the diagnosis of subarachnoid haemorrhage? 1 (PV); 685 (L)
- Bernstein RM *see* Guy JM
- Blacklock C *see* Sattar N
- Blincko S, Edwards R: Quenching of fluorescence by glycated haemoglobin: early development of a novel assay 140 (SR)
- Boeynaems J-M *see* Cotton F
- Bowron A *see* Al-Khafaji F
- Bradley L *see* Rifai N
- Brady J, O'Leary N: Interference due to haemolysis in routine photometric analysis—a survey 128 (OA)
- Brammah TB *see* Guy JM
- Brennan G *see* Lawrence JR
- Browne M *see* Lamb EJ
- Bullock DG: Scoring systems in EQA 551 (L)
- Bullock DG, Whicher JT: Comparability of serum, alpha-1-antitrypsin quantitation 555 (L)
- Burden TJ, Whitehead MW, Thompson RPH, Powell JJ: Preparation of urine samples for trace metal determination: a study with aluminium analysis by inductively coupled plasma optical emission spectrometry 245 (OA)
- Butler SA, Cole LA, Chard T, Iles RK: Dissociation of human chorionic gonadotrophin into its free subunits is dependent on naturally occurring molecular structural variation, sample matrix and storage conditions 754 (OA)
- Caballero A, Corcoy R, Negredo E, Rodríguez-Espinosa J: Autoantibodies against thyroid hormones can lead to an erroneous diagnosis and potentially harmful treatment 152 (CR), 556 (L)
- Callender R *see* Labib M
- Campbell GR *see* Lawrence JR
- Casesnoves A, Mauri M, Dominguez JR, Alfayate R, Picó AM: Influence of anti-insulin antibodies on insulin immunoassays in the autoimmune insulin syndrome 768 (OA)
- Chamberlain JC, Hill D, Shenkin A, on behalf of the Fluvastatin Genotyping Group: Dietary treatment of hypercholesterolaemia: lack of relationship between individual response and genetic variation at the lipase loci 427 (OA)
- Chambers SM *see* Poyser KH
- Chan JCN *see* Ko GTC
- Chard T *see* Butler SA
- Charles P *see* Miles J
- Charlson JR *see* Baskin LB
- Chow C-C *see* Ko GTC
- Christensen JM *see* Kristiansen J
- Cobbaert C, Louisa A, Struijk L, Demeyere R, Meyns B: Lipoprotein(a) changes during and after coronary artery bypass grafting: an epiphenomenon? 75 (OA)
- Cockram CS *see* Ko GTC
- Cohen A *see* McColl AJ
- Cole LA *see* Butler SA
- Collins MF *see* Ledue TB
- Collinson PO, Hadcock L, Foo Y, Rosalki SB, Stubbs PJ, Morgan SH, O'Donnell J: Cardiac troponins in patients with renal dysfunction 380 (OA)
- Cooper RG *see* Guy JM

- Corcoy R** *see* Caballero A
- Cotton F, Adler M, Dumon J, Boeynaems J-M, Gulbis B:** A simple method for carbohydrate-deficient transferrin measurement in patients with alcohol abuse and hepato-gastrointestinal diseases 268 (OA); erratum 445
- Craig BM** *see* Wallace JMW
- Crook M, Kerai P, Andrews V, Lumb P, Swaminathan R:** Serum sialic acid, a reputed cardiovascular risk factor, is elevated in South Asian men compared to European men 242 (OA)
- Crossley JA** *see* Wallace EM
- Daas LNW:** The Hemocue B glucose analyser and neonatal blood glucose monitoring 331 (L)
- Davidson DF:** What is the best formula for predicting osmolar gap? 443 (L)
- Day AP** *see* Al-Khafaji F
- Day INM** *see* Nissen H; Wenham PR
- Day JB** *see* Heys AD
- Day LB** *see* Nissen H
- de Keijzer MH, Swinkels DW, van der Meer W:** Thrombocytopenia and giant platelets without major haemorrhagic complications in a pregnant patient 678 (CR)
- De Vooght K** *see* Kyd PA
- Deacon AC, Ledden JA:** Limitations of solvent fractionation methods for urinary and faecal porphyrins 314 (SR)
- Deacon AC, Peters TJ:** Identification of acute porphyria: evaluation of a commercial screening test for urinary porphobilinogen 726 (OA)
- del Mar Rodriguez M** *see* Puelles A
- Demeyere R** *see* Cobbaert C
- Dey DC, Maekawa M, Sudo K, Kanno T:** Butyrylcholinesterase genes in individuals with abnormal inhibition numbers and with trace activity: one common mutation and two novel silent genes 302 (OA)
- Dimetz T** *see* Gomes MB
- Dominguez JR** *see* Casesnoves A
- Donnai P** *see* Ayuk P
- Donnelly JG:** Effects of haemolysis on the Boehringer Mannheim creatine kinase-MB assay 143 (SR), 558 (L)
- Dorresteijn-de Bok J** *see* Zijderhoudt FMJ
- Drayson M** *see* Laing I
- Duffy MJ:** CA 19-9 as a marker for gastrointestinal cancers: a review 364 (RA)
- Duly EB, Trinick TR, Grimason P:** Haematocrit and the Boehringer Advantage blood glucose meter 325 (L)
- Dumon J** *see* Cotton F
- Duncan A, Hill PG:** A UK survey of laboratory-based gastrointestinal investigations 492 (OA)
- Dunstan FDJ, Nix ABJ:** Screening for Down's syndrome: the effect of test date on the detection rate 57 (OA)
- Dutton J** *see* Higgins G
- Edwards R** *see* Blincko S
- Endoh K** *see* Hori Y
- English A, Mishbah SA:** Antibodies to endomysium and gliadin in coeliac disease 783 (L)
- English A** *see also* Verrill HJ

- Abdominal hysterectomy.** Laparoscopic assisted vaginal hysterectomy versus abdominal hysterectomy 156 (L)
- Acid-base data.** Log-jam in acid-base education and investigation: why make it so difficult? 85 (OA)
- Acute phase reactants.** Evaluation of a latex-enhanced immunoturbidimetric assay for measuring low concentrations of C-reactive protein 671 (SR)
- Adrenal failure.** Secondary adrenal failure in a young woman presenting as hypoglycaemic coma 545 (CR)
- Adrenocortical insufficiency.** Renal carcinoma presenting with adrenocortical insufficiency due to a pituitary metastasis 542 (CR)
- Adrenomedullin.** Distribution and expression of adrenomedullin in human gastrointestinal tissue 643 (OA)
- Air tube systems.** Air tube systems and safety 326 (L)
- Albumin.** Albumin concentration is underestimated in frozen urine 434 (SR)
- Alcohol abuse.** A simple method for carbohydrate-deficient transferrin measurement in patients with alcohol abuse and hepato-gastrointestinal diseases 268 (OA); erratum 445
- Alendronate.** Clinical usefulness of bone alkaline phosphatase in osteoporosis 717 (OA)
- Alkaline phosphatase**
Alkaline phosphatase activity measurement in the UK by AMP-buffered methods: an appraisal of current practice 120 (OA)
Clinical usefulness of bone alkaline phosphatase in osteoporosis 717 (OA)
Properties of high-molecular-mass placental alkaline phosphatases in normal pregnancy sera 515 (OA)
- Alpha-1-antitrypsin**
Comparability of serum alpha-1-antitrypsin quantitation 555 (L)
Myeloma complicated by alpha-1-antitrypsin deficiency 149 (CR)
- Aluminium analysis.** Preparation of urine samples for trace metal determination: a study with aluminium analysis by inductively coupled plasma optical emission spectrometry 245 (OA)
- 2-Amino-2-methyl-1-propanol (AMP) buffer.** Alkaline phosphatase activity measurement in the UK by AMP-buffered methods: an appraisal of current practice 120 (OA)
- Amperometric determination.** Amperometric determination of high-density lipoprotein cholesterol using polyethylene glycol-modified enzymes and a peroxidase-entrapped electrode 739 (OA)
- Amyloid A.** Analytical evaluation of particle-enhanced immunonephelometric assays for C-reactive protein, serum amyloid A and mannose-binding protein in human serum 745 (OA)
- Analytical measurements.** Traceability and uncertainty in analytical measurements 371 (RA)
- Aneurysm.** What is the role of CSF spectrophotometry in the diagnosis of subarachnoid haemorrhage? 1 (PV); 684 (L)
- Angina**
Assessment of platelet derived growth factor concentration in post myocardial infarction and stable angina patients 236 (OA)
Evaluation of a latex-enhanced immunoturbidimetric assay for measuring low concentrations of C-reactive protein 671 (SR)
- Anorexia nervosa.** Dissociation of bone turnover in anorexia nervosa 709 (OA)
- Anti-beta-lactoglobulin IgG.** Sensitive enzyme immunoassay for anti-beta-lactoglobulin IgG in serum 649 (OA)
- Anti-mouse monoclonal antibodies.** Falsely lowered FT4 and raised TSH concentrations in a patient with hyperthyroidism and human anti-mouse monoclonal antibodies 317 (CR)
- Anticonvulsants.** The incorporation of lamotrigine into the routine automated sequential trace enrichment of dialysates assay of anticonvulsants 534 (OA)
- Antioxidants**
Analytical aspects of antioxidants and free radical activity in clinical biochemistry 181 (RA)
Is measuring serum antioxidant capacity clinically useful? 48 (RA)
Plasma antioxidants: evidence for a protective role against reactive oxygen species following cardiac surgery 616 (OA)
Serum antioxidant activity after myocardial infarction 333 (L)
- Apolipoprotein A-I and B.** Conversion of apolipoproteins A-I and B reference limits obtained by a turbidimetric procedure to other methods 311 (SR)
- Apolipoprotein A-I.** Apo A-I and apo E concentrations in cerebrospinal fluids of patients with acute meningitis 408 (OA)
- Apolipoprotein-B gene.** Denaturing gradient gel electrophoretic analysis of codons 3456-3553 of the apolipoprotein-B gene in 106 type IIa hyperlipoproteinaemic individuals 137 (SR)
- Apolipoprotein E**
Apo A-I and apo E concentrations in cerebrospinal fluids of patients with acute meningitis 408 (OA)
Apolipoprotein E polymorphism in multiple sclerosis 135 (SR)
- Apolipoprotein H.** Sensitive assays for urinary retinol-binding protein and beta-2-glycoprotein-1 based on commercially available standards 115 (OA)
- Arteriosclerosis.** Stabilization of blood homocysteine by 3-deazaadenosine 780 (SR)

Atherosclerosis

Evaluation of a latex-enhanced immunoturbidimetric assay for measuring low concentrations of C-reactive protein **671** (SR)

Serum lipoprotein lipase in healthy subjects: effects of duration and age, and relationships to lipid parameters **733** (OA)

Atomic absorption spectrophotometry. Magnesium measurement in routine clinical practice **449** (RA)

Audit. Audit of the clinical utility of antibodies to endomysium and gliadin as markers of coeliac disease **436** (SR); **783** (L)

Autoantibodies

Autoantibodies against thyroid hormones can lead to an erroneous diagnosis and potentially harmful treatment **152** (CR), **555** (L), **556** (L)

Review of methods available for the identification of both organ-specific and non-organ-specific autoantibodies **19** (RA)

Autoimmune disease. A review of methods available for the identification of both organ-specific and non-organ-specific autoantibodies **19** (RA)

Autoimmune insulin syndrome. Influence of anti-insulin antibodies on insulin immunoassays in the autoimmune insulin syndrome **768** (OA)

Automated fluorimetric determination. Automated fluorimetric determination of cellular cholesterol **665** (OA)

Bacterial bioassay. A simple bacterial bioassay for the measurement of L-glutamine **110** (OA)

Benzodiazepines. Micro-extraction of chlordiazepoxide and its primary metabolites, desmethylchlordiazepoxide and demoxepam, from plasma and their measurement by liquid chromatography **528** (OA)

Benzphetamine. Development of a method for the quantitation of benzphetamine metabolites in human urine by high-performance liquid chromatography **775** (OA)

Beta-2-glycoprotein-1. Sensitive assays for urinary retinol-binding protein and beta-2-glycoprotein-1 based on commercially available standards **115** (OA)

Bile. Determination of free fatty acids in human bile by high-performance liquid chromatography **279** (OA)

Biliary tract cancer. Determination of free fatty acids in human bile by high-performance liquid chromatography **279** (OA)

Bio-Rad Porphyrin Column Test. Comparison of the Bio-Rad Porphyrin Column Test with a simple spectrophotometric test for total urine porphyrin concentration **418** (OA)

Biochemical markers

Biochemical markers of acute myocardial infarction: strategies for improving their clinical usefulness **393** (OA)

Dissociation of bone turnover in anorexia nervosa **709** (OA)

Biological variation. Biological variation of cardiac markers: analytical and clinical considerations **80** (OA), **554** (L)

Blood glucose. Accuracy of devices used for self-monitoring of blood glucose **68** (OA)

Blood spots. Multiplex genotyping for cystic fibrosis from filter paper blood spots **611** (OA)

Boehringer Advantage blood glucose meter

Addition of further blood to the Boehringer Advantage blood glucose meter **687** (L)

Haematocrit and the Boehringer Advantage blood glucose meter **325** (L)

Boehringer Mannheim creatine kinase-MB assay.

Effects of haemolysis on the Boehringer Mannheim creatine kinase-MB assay **143** (SR), **556** (L), **558** (L);

Blanking-out effects of haemolysis on Boehringer Mannheim creatine kinase (total and isoenzyme MB) assays **785** (L), **786** (L)

Bone disease. Clinical application of intact parathyroid hormone assays **784** (L)

Bone markers

Clinical usefulness of bone alkaline phosphatase in osteoporosis **717** (OA)

Dissociation of bone turnover in anorexia nervosa **709** (OA)

Bone turnover

Clinical usefulness of bone alkaline phosphatase in osteoporosis **717** (OA)

Dissociation of bone turnover in anorexia nervosa **709** (OA)

Hemocue B glucose analyser and neonatal blood glucose monitoring **329** (L)
Improving the quality of near-patient blood glucose measurement **155** (L)
- Glucose homeostasis.** Insulin resistance **567** (RA)
- Glutamic acid decarboxylase.** Antibodies to glutamic acid decarboxylase in young Chinese diabetic patients **761** (OA)
- Glutamine.** A simple bacterial bioassay for the measurement of L-glutamine **110** (OA)

- Glycated haemoglobin**, Quenching of fluorescence by glycated haemoglobin: early development of a novel assay **140** (SR)
- Glyoxylate reductase**, Kinetic analysis and tissue distribution of human D-glycerate dehydrogenase/glyoxylate reductase and its relevance to the diagnosis of primary hyperoxaluria type 2 **104** (OA); erratum **688**
- Griess reaction method**, Adaptation of the nitrate and Griess reaction methods for the measurement of serum nitrate plus nitrate levels **154** (L)
- Haem synthesis**, The ratio of erythrocyte zinc-protoporphyrin to protoporphyrin IX in disease and its significance in the mechanism of lead toxicity on haem synthesis **422** (OA)
- Haematocrit**, Haematocrit and the Boehringer Advantage blood glucose meter **325** (L)
- Haemochromatosis**, Haemochromatosis case detection by genetic testing: a new era **674** (CR)
- Haemodialysis**, Clinical application of intact parathyroid hormone assays **784** (L)
- Haemoglobin A_{1c}**
Comparison of automated fructosamine and HbA_{1c} methods for monitoring diabetes in pregnancy **283** (OA)
Effect of an unusual haemoglobin variant ($\beta_{51}\text{Pro} \rightarrow \text{His}$) on haemoglobin A_{1c} measurement **321** (CR)
- Haemoglobin variant ($\beta_{51}\text{Pro} \rightarrow \text{His}$)**, The effect of an unusual haemoglobin variant ($\beta_{51}\text{Pro} \rightarrow \text{His}$) on haemoglobin A_{1c} measurement **321** (CR)
- Haemolysis**
Effects of haemolysis on the Boehringer Mannheim creatine kinase-MB assay **143** (SR), **556** (L), **558** (L); Blanking-out effects of haemolysis on Boehringer Mannheim creatine kinase (total and isoenzyme MB) assays **785** (L), **786** (L)
Interference due to haemolysis in routine photometric analysis—a survey **128** (OA)
- HbA_{1c}**, Clinical and biochemical determinants of plasma lipid peroxide levels in type 2 diabetes **387** (OA)
- Hemocue B glucose analyser**, The Hemocue B glucose analyser and neonatal blood glucose monitoring **329** (L)
- Hepato-gastrointestinal diseases**, A simple method for carbohydrate-deficient transferrin measurement in patients with alcohol abuse and hepato-gastrointestinal diseases **268** (OA); erratum **445**
- Heterophilic antibodies**, Autoantibodies against thyroid hormones can lead to an erroneous diagnosis and potentially harmful treatment **152** (CR), **555** (L), **556** (L)
- High-density lipoprotein cholesterol**, Amperometric determination of high-density lipoprotein cholesterol using polyethylene glycol-modified enzymes and a peroxidase-entrapped electrode **739** (OA)
- High-performance liquid chromatography**
Determination of free fatty acids in human bile by high-performance liquid chromatography **279** (OA)
Development of a method for the quantitation of benzphetamine metabolites in human urine by high-performance liquid chromatography **775** (OA)
- Limitations of solvent fractionation methods for urinary and faecal porphyrins **314** (SR)
- The incorporation of lamotrigine into the routine automated sequential trace enrichment of dialysates assay of anticonvulsants **534** (OA)
- Hirsutism**, Hirsutism of recent onset with marked hyperandrogenaemia and ovarian hyperthecosis after the menopause **145** (CR)
- Homocysteine**, Stabilization of blood homocysteine by 3-deazaadenosine **780** (SR)
- Hormone assays**, Standardization of steroid hormone assays **354** (PV)
- Human anti-mouse monoclonal antibodies**, Falsely lowered FT4 and raised TSH concentrations in a patient with hyperthyroidism and human anti-mouse monoclonal antibodies **317** (CR)
- Human chorionic gonadotrophin**
Analysis of hCG: clinical applications and assay requirements **460** (RA)
Dissociation of human chorionic gonadotrophin into its free subunits is dependent on naturally occurring molecular structural variation, sample matrix and storage conditions **754** (OA)
- Hydrogen ion concentrations**, Log-jam in acid-base education and investigation: why make it so difficult? **85** (OA)
- Hydrolysis**, Isolation and properties of a novel phospholipase A from rat brain that hydrolyses fatty acids at *sn*-1 and *sn*-2 positions **295** (OA)
- Hyperandrogenaemia**, Hirsutism of recent onset with marked hyperandrogenaemia and ovarian hyperthecosis after the menopause **145** (CR)
- Hypercholesterolaemia**, Dietary treatment of hypercholesterolaemia: lack of relationship between individual response and genetic variation at the lipase loci **427** (OA)
- Hyperhomocysteinaemia**, Stabilization of blood homocysteine by 3-deazaadenosine **780** (SR)
- Hyperlipoproteinaemia**, Denaturing gradient gel electrophoretic analysis of codons 3456-3553 of the apolipoprotein-B gene in 106 type IIa hyperlipoproteinaemic individuals **137** (SR)
- Hyperoxaluria**, Kinetic analysis and tissue distribution of human D-glycerate dehydrogenase/glyoxylate reductase and its relevance to the diagnosis of primary hyperoxaluria type 2 **104** (OA); erratum **688**
- Hyperthyroidism**, Falsely lowered FT4 and raised TSH concentrations in a patient with hyperthyroidism and human anti-mouse monoclonal antibodies **317** (CR)
- Hypertriglyceridaemia**, Increased gamma-glutamyl-transferase in hypertriglyceridaemia: the value of carbohydrate-deficient transferrin measurement **432** (SR)
- Hypocalcaemia**, A case of factitious hypocalcaemia **442** (L)
- Hypoglycaemia**, Influence of anti-insulin antibodies on insulin immunoassays in the autoimmune insulin syndrome **768** (OA)
- Hypoglycaemic coma**, Secondary adrenal failure in a young woman presenting as hypoglycaemic coma **545** (CR)
- Hypophysis**, Secondary adrenal failure in a young woman presenting as hypoglycaemic coma **545** (CR)

- Hypopituitarism.** Renal carcinoma presenting with adrenocortical insufficiency due to a pituitary metastasis **542** (CR)
- Hysterectomy.** Laparoscopic assisted vaginal hysterectomy versus abdominal hysterectomy **156** (L)
- Iatrogenic hypothyroidism.** Autoantibodies against thyroid hormones can lead to an erroneous diagnosis and potentially harmful treatment **152** (CR), **555** (L), **556** (L)
- Immunoassay.** Traceability and uncertainty in analytical measurements **371** (RA)
- Immunoreactive trypsinogen.** Multiplex genotyping for cystic fibrosis from filter paper blood spots **611** (OA)
- Immunosuppressive drugs.** Therapeutic monitoring of tacrolimus **167** (PV)
- Indirect immunofluorescence.** A review of methods available for the identification of both organ-specific and non-organ-specific autoantibodies **19** (RA)
- Inductively coupled plasma optical emission spectrometry.** Preparation of urine samples for trace metal determination: a study with aluminium analysis by inductively coupled plasma optical emission spectrometry **245** (OA)
- Infra-red analysis.** Multianalyte serum analysis using mid-infrared spectroscopy **624** (OA)
- Inhibin A.** Evolution of an inhibin A ELISA method: implications for Down's syndrome screening **656** (OA)
- Insulin.** Insulin resistance **567** (RA)
- Insulin immunoassays.** Influence of anti-insulin antibodies on insulin immunoassays in the autoimmune insulin syndrome **768** (OA)
- Insulin resistance.** Hirsutism of recent onset with marked hyperandrogenaemia and ovarian hyperthecosis after the menopause **145** (CR)
- Interference**
Effects of haemolysis on the Boehringer Mannheim creatine kinase-MB assay **143** (SR), **556** (L), **558** (L); Blanking-out effects of haemolysis on Boehringer Mannheim creatine kinase (total and isoenzyme MB) assays **785** (L), **786** (L)
Interference due to haemolysis in routine photometric analysis—a survey **128** (OA)
- Ion monitoring**
Determination of serum physiological concentration of methylmalonic acid by gas chromatography-mass spectrometry with selected ion monitoring **633** (OA)
Solid phase extraction method for determination of nicotine in serum and urine by isotope dilution gas chromatography/mass spectrometry with selected ion monitoring **522** (OA)
- Iron.** Iron homeostasis and the assessment of iron status **693** (RA)
- Iron overload.** Haemochromatosis case detection by genetic testing: a new era **674** (CR)
- Ischaemic cerebrovascular disease.** Lipoprotein (a) and ischaemic cerebrovascular disease **327** (L)
- Isotope dilution gas chromatography.** A solid phase extraction method for determination of nicotine in serum and urine by isotope dilution gas chromatography/mass spectrometry with selected ion monitoring **522** (OA)
- Journal Watch** **342, 446, 563, 689, 789**
- L-glutamine.** A simple bacterial bioassay for the measurement of L-glutamine **110** (OA)
- Laboratory investigations.** Rational use of clinical chemistry investigations: from diagnoses to processes **351** (PV)
- Lactate dehydrogenase isoenzymes M : H ratio.** A simple method for the detection of lactate dehydrogenase isoenzymes M : H ratio by gel filtration **439** (SR)
- Lamotrigine.** The incorporation of lamotrigine into the routine automated sequential trace enrichment of dialysates assay of anticonvulsants **534** (OA)
- Laparoscopic assisted vaginal hysterectomy.** Laparoscopic assisted vaginal hysterectomy versus abdominal hysterectomy **156** (L)
- Latex-enhanced immunoturbidimetric assay.** Evaluation of a latex-enhanced immunoturbidimetric assay for measuring low concentrations of C-reactive protein **671** (SR)
- Laxative analysis.** A UK survey of laboratory-based gastrointestinal investigations **492** (OA)
- Lead toxicity.** The ratio of erythrocyte zinc-protoporphyrin to protoporphyrin IX in disease and its significance in the mechanism of lead toxicity on haem synthesis **422** (OA)
- Lipase loci.** Dietary treatment of hypercholesterolaemia: lack of relationship between individual response and genetic variation at the lipase loci **427** (OA)
- Lipid peroxide levels.** Clinical and biochemical determinants of plasma lipid peroxide levels in type 2 diabetes **387** (OA)
- Lipids.** Serum sialic acid, a reputed cardiovascular risk factor, is elevated in South Asian men compared to European men **242** (OA)
- Lipoprotein (a)**
Lipoprotein (a) changes during and after coronary artery bypass grafting: an epiphenomenon? **75** (OA)
Lipoprotein (a) and ischaemic cerebrovascular disease **327** (L)
- Lipoprotein lipase.** Serum lipoprotein lipase in healthy subjects: effects of gender and age, and relationships to lipid parameters **733** (OA)
- Liquid chromatography.** Micro-extraction of chlordiazepoxide and its primary metabolites, desmethylchlordiazepoxide and demoxepam, from plasma and their measurement by liquid chromatography **528** (OA)
- Liver disease.** The effect of benign and malignant liver disease on the tumour markers CA19-9 and CEA **99** (OA)
- Liver transplantation.** Wilson's disease: gall stone copper following liver transplantation **681** (CR)
- Low-density lipoprotein cholesterol.** Oxidation of LDL cholesterol **157** (L)
- Magnesium.** Magnesium measurement in routine clinical practice **449** (RA)
- Malabsorption.** A UK survey of laboratory-based gastrointestinal investigations **492** (OA)
- Mannose-binding protein.** Analytical evaluation of particle-enhanced immunonephelometric assays for

- C-reactive protein, serum amyloid A and mannose-binding protein in human serum **745** (OA)
- Mass spectrometry**, A solid phase extraction method for determination of nicotine in serum and urine by isotope dilution gas chromatography/mass spectrometry with selected ion monitoring **522** (OA)
- Maternal phenylketonuria**, Maternal phenylketonuria **539** (CR)
- Measurement conversion factors**, Guidelines for the interpretation of analytical toxicology results and unit of measurement conversion factors **261** (OA)
- Measurements**, Traceability and uncertainty in analytical measurements **371** (RA)
- Meningitis**, Apo A-I and apo E concentrations in cerebrospinal fluids of patients with acute meningitis **408** (OA)
- Menopause**, Hirsutism of recent onset with marked hyperandrogenaemia and ovarian hyperthecosis after the menopause **145** (CR)
- Methylmalonic acid**, Determination of serum physiological concentration of methylmalonic acid by gas chromatography-mass spectrometry with selected ion monitoring **633** (OA)
- Micro-extraction**, Micro-extraction of chlordiazepoxide and its primary metabolites, desmethylchlordiazepoxide and demoxepam, from plasma and their measurement by liquid chromatography **528** (OA)
- Microalbuminuria**, Microalbuminuria in type 2 diabetic patients **334** (L)
- Mid-infrared spectroscopy**, Multianalyte serum analysis using mid-infrared spectroscopy **624** (OA)
- Monocytes**, Automated fluorimetric determination of cellular cholesterol **665** (OA)
- mRNA**
Distribution and expression of adrenomedullin in human gastrointestinal tissue **643** (OA)
Effects of sex steroid hormones on corticosteroid-binding globulin gene expression in human endometrial cancer cell line Ishikawa **637** (OA)
- Mucopolysaccharide disorders**, Urine analysis in the diagnosis of mucopolysaccharide disorders **207** (RA)
- Multianalyte serum analysis**, Multianalyte serum analysis using mid-infrared spectroscopy **624** (OA)
- Multiple organ failure**, Cardiac troponins in patients with renal dysfunction **380** (OA)
- Multiple sclerosis**, Apolipoprotein E polymorphism in multiple sclerosis **135** (SR)
- Multiplex genotyping**, Multiplex genotyping for cystic fibrosis from filter paper blood spots **611** (OA)
- Mutations**, Butyrylcholinesterase genes in individuals with abnormal inhibition numbers and with trace activity: one common mutation and two novel silent genes **302** (OA)
- Myeloma**, Myeloma complicated by alpha-1-antitrypsin deficiency **149** (CR)
- Myocardial infarction**
Assessment of platelet derived growth factor concentration in post myocardial infarction and stable angina patients **236** (OA)
Biochemical markers of acute myocardial infarction: strategies for improving their clinical usefulness **393** (OA)
- Serum antioxidant activity after myocardial infarction **333** (L)
- Tetranectin levels in patients with acute myocardial infarction and their alterations during thrombolytic treatment **400** (OA)
- Myoglobin**, Biological variation of cardiac markers: analytical and clinical considerations **80** (OA), **554** (L)
- Near-patient blood glucose measurement**
Accuracy of devices used for self-monitoring of blood glucose **68** (OA)
Improving the quality of near-patient blood glucose measurement **155** (L)
- Neonatal blood glucose monitoring**, The Hemocue B glucose analyser and neonatal blood glucose monitoring **329** (L)
- Nephelometry**, Conversion of apolipoproteins A-I and B reference limits obtained by a turbidimetric procedure to other methods **311** (SR)
- Nicotine**, A solid phase extraction method for determination of nicotine in serum and urine by isotope dilution gas chromatography/mass spectrometry with selected ion monitoring **522** (OA)
- Nitrate reductase**, Adaptation of the nitrate and Griess reaction methods for the measurement of serum nitrate plus nitrate levels **154** (L)
- Oral glucose tolerance test**, The reproducibility and usefulness of the oral glucose tolerance test in screening for diabetes and other cardiovascular risk factors **62** (OA)
- Organ/non-organ-specific autoantibodies**, A review of methods available for the identification of both organ-specific and non-organ-specific autoantibodies **19** (RA)
- Osmolar gap**, What is the best formula for predicting osmolar gap? **443** (L)
- Osteoarthritis**, Endothelin-1 production by human synoviocytes **290** (OA)
- Osteocalcin**, Osteocalcin following tibial shaft fracture **324** (L)
- Osteomalacia**, Renal tubular reabsorption of phosphate (TmP/GFR): indications and interpretation **201** (RA)
- Osteoporosis**, Clinical usefulness of bone alkaline phosphatase in osteoporosis **717** (OA)
- Ovarian hyperthecosis**, Hirsutism of recent onset with marked hyperandrogenaemia and ovarian hyperthecosis after the menopause **145** (CR)
- Oxidation**, Oxidation of LDL cholesterol **157** (L)
- Oxidative stress**, Oxidative stress of vanadium-mediated oxygen free radical generation stimulated by aluminium on human erythrocytes **254** (OA)
- PAGE**, Properties of high-molecular-mass placental alkaline phosphatases in normal pregnancy sera **515** (OA)
- Pancreatic cancer**
CA 19-9 as a marker for gastrointestinal cancers: a review **364** (RA)
Effect of benign and malignant liver disease on the tumour markers CA19-9 and CEA **99** (OA)

- Pancreatic function tests.** A UK survey of laboratory-based gastrointestinal investigations **492** (OA)
- Pancreolauryl test.** Glucose interference in the pancreolauryl test **274** (OA); **686** (L)
- Parathyroid hormone assays.** Clinical application of intact parathyroid hormone assays **784** (L)
- Particle-enhanced immunonephelometric assay.** Analytical evaluation of particle-enhanced immunonephelometric assays for C-reactive protein, serum amyloid A and mannose-binding protein in human serum **745** (OA)
- Pathophysiological process.** Rational use of clinical chemistry investigations: from diagnoses to processes **351** (PV)
- Peroxidase-entrapped electrode.** Amperometric determination of high-density lipoprotein cholesterol using polyethylene glycol-modified enzymes and a peroxidase-entrapped electrode **739** (OA)
- pH.** Log-jam in acid-base education and investigation: why make it so difficult? **85** (OA)
- Phenylketonuria.** Maternal phenylketonuria **539** (CR)
- Phosphate (TmP/GFR).** Renal tubular reabsorption of phosphate (TmP/GFR): indications and interpretation **201** (RA)
- Phospholipase A.** Isolation and properties of a novel phospholipase A from rat brain that hydrolyses fatty acids at *sn*-1 and *sn*-2 positions **295** (OA)
- Photometric analysis.** Interference due to haemolysis in routine photometric analysis—a survey **128** (OA)
- Pituitary metastasis.** Renal carcinoma presenting with adrenocortical insufficiency due to a pituitary metastasis **542** (CR)
- Placenta.** Properties of high-molecular-mass placental alkaline phosphatases in normal pregnancy sera **515** (OA)
- Plasma antioxidants.** Plasma antioxidants: evidence for a protective role against reactive oxygen species following cardiac surgery **616** (OA)
- Platelet-derived growth factor.** The assessment of platelet derived growth factor concentration in post myocardial infarction and stable angina patients **236** (OA)
- Pleural fluid pseudouridine.** Pleural fluid pseudouridine in malignant and benign pleural effusions **94** (OA)
- Poisoning.** Guidelines for the interpretation of analytical toxicology results and unit of measurement conversion factors **261** (OA)
- Polyacrylamide gel electrophoresis** *see* PAGE
- Polyethylene glycol-modified enzymes.** Amperometric determination of high-density lipoprotein cholesterol using polyethylene glycol-modified enzymes and a peroxidase-entrapped electrode **739** (OA)
- Polymerase chain reaction**
Butyrylcholinesterase genes in individuals with abnormal inhibition numbers and with trace activity: one common mutation and two novel silent genes **302** (OA)
Laboratory investigations by DNA amplification: from research to practice **5** (PV)
Simplified detection of a mutation causing familial hypercholesterolaemia throughout Britain: evidence for an origin in a common distant ancestor **226** (OA)
- Porphyria**
Identification of acute porphyria: evaluation of a commercial screening test for urinary porphobilinogen **726** (OA)
Limitations of solvent fractionation methods for urinary and faecal porphyrins **314** (SR)
- Porphyrin concentration.** Comparison of the Bio-Rad Porphyrin Column Test with a simple spectrophotometric test for total urine porphyrin concentration **418** (OA)
- Post-myocardial infarction**
Assessment of platelet derived growth factor concentration in post myocardial infarction and stable angina patients **236** (OA)
Serum antioxidant activity after myocardial infarction **333** (L)
- Pregnancy**
Analysis of hCG: clinical applications and assay requirements **460** (RA)
Comparison of automated fructosamine and HbA_{1c} methods for monitoring diabetes in pregnancy **283** (OA)
Properties of high-molecular-mass placental alkaline phosphatases in normal pregnancy sera **515** (OA)
Thrombocytopenia and giant platelets without major haemorrhagic complications in a pregnant patient **678** (CR)
- Prenatal screening.** Evolution of an inhibin A ELISA method: implications for Down's syndrome screening **656** (OA)
- Primary hyperoxaluria type 2.** Kinetic analysis and tissue distribution of human D-glycerate dehydrogenase/glyoxylate reductase and its relevance to the diagnosis of primary hyperoxaluria type 2 **104** (OA); erratum **688**
- Progestin.** Effects of sex steroid hormones on corticosteroid-binding globulin gene expression in human endometrial cancer cell line Ishikawa **637** (OA)
- Prostatic carcinoma.** Screening for prostatic carcinoma **335** (L)
- Protein hormone.** Traceability and uncertainty in analytical measurements **371** (RA)
- Protein reference standards.** Conversion of apolipoproteins A-I and B reference limits obtained by a turbidimetric procedure to other methods **311** (SR)
- Protoporphyrin IX.** The ratio of erythrocyte zinc-protoporphyrin to protoporphyrin IX in disease and its significance in the mechanism of lead toxicity on haem synthesis **422** (OA)
- Pseudouridine.** Pleural fluid pseudouridine in malignant and benign pleural effusions **94** (OA)
- Quality assessment**
Alkaline phosphatase activity measurement in the UK by AMP-buffered methods: an appraisal of current practice **120** (OA)
Interference due to haemolysis in routine photometric analysis—a survey **128** (OA)
- Quality assurance**
External quality assurance **12** (PV), **549** (L), **550** (L), **551** (L), **552** (L)

- Standardization of steroid hormone assays **354** (PV)
- Quenching.** Quenching of fluorescence by glycated haemoglobin: early development of a novel assay **140** (SR)
- Racial differences.** Serum sialic acid, a reputed cardiovascular risk factor, is elevated in South Asian men compared to European men **242** (OA)
- Radioimmunoassay.** Distribution and expression of adrenomedullin in human gastrointestinal tissue **643** (OA)
- Randox International Quality Assessment Scheme.** RIQAS scoring system **552** (L)
- Rapid ultracentrifugation.** A simple method for assessing copper-mediated oxidation of very-low-density lipoprotein isolated by rapid ultracentrifugation **504** (OA)
- Rat brain.** Isolation and properties of a novel phospholipase A from rat brain that hydrolyses fatty acids at *sn*-1 and *sn*-2 positions **295** (OA)
- Reactive oxygen species**
Is measuring serum antioxidant capacity clinically useful? **48** (RA)
Plasma antioxidants: evidence for a protective role against reactive oxygen species following cardiac surgery **616** (OA)
- Renal carcinoma.** Renal carcinoma presenting with adrenocortical insufficiency due to a pituitary metastasis **542** (CR)
- Renal dysfunction.** Cardiac troponins in patients with renal dysfunction **380** (OA)
- Renal tubular reabsorption.** Renal tubular reabsorption of phosphate (TmP/GFR): indications and interpretation **201** (RA)
- Retinol-binding protein.** Sensitive assays for urinary retinol-binding protein and beta-2-glycoprotein-1 based on commercially available standards **115** (OA)
- Rheumatoid arthritis.** Endothelin-1 production by human synoviocytes **290** (OA)
- RIQAS scoring system.** RIQAS scoring system **552** (L)
- Risk factor.** Serum sialic acid, a reputed cardiovascular risk factor, is elevated in South Asian men compared to European men **242** (OA)
- Scavenging and chelating antioxidants.** Is measuring serum antioxidant capacity clinically useful? **48** (RA)
- Scoring systems**
RIQAS scoring system **552** (L)
Scoring systems in EQA **551** (L)
- Screening**
Reproducibility and usefulness of the oral glucose tolerance test in screening for diabetes and other cardiovascular risk factors **62** (OA)
Screening for Down's syndrome: the effect of test date on the detection rate **57** (OA)
Screening for prostatic carcinoma **335** (L)
- Secondary adrenal failure.** Secondary adrenal failure in a young woman presenting as hypoglycaemic coma **545** (CR)
- Self-monitoring.** Accuracy of devices used for self-monitoring of blood glucose **68** (OA)
- Sensitive enzyme immunoassay.** Sensitive enzyme immunoassay for anti-beta-lactoglobulin IgG in serum **649** (OA)
- Serum antioxidant capacity.** Is measuring serum antioxidant capacity clinically useful? **48** (RA)
- Sex steroid hormones.** Effects of sex steroid hormones on corticosteroid-binding globulin gene expression in human endometrial cancer cell line Ishikawa **637** (OA)
- Sialic acid.** Serum sialic acid, a reputed cardiovascular risk factor, is elevated in South Asian men compared to European men **242** (OA)
- Solvent fractionation methods.** Limitations of solvent fractionation methods for urinary and faecal porphyrins **314** (SR)
- Spectrophotometric test**
Comparison of the Bio-Rad Porphyrin Column Test with a simple spectrophotometric test for total urine porphyrin concentration **418** (OA)
Interference due to haemolysis in routine photometric analysis—a survey **128** (OA)
What is the role of CSF spectrophotometry in the diagnosis of subarachnoid haemorrhage? **1** (PV); **684** (L)
- Steroid hormone assays.** Standardization of steroid hormone assays **354** (PV)
- Stroke.** Lipoprotein (a) and ischaemic cerebrovascular disease **327** (L)
- Subarachnoid haemorrhage.** What is the role of CSF spectrophotometry in the diagnosis of subarachnoid haemorrhage? **1** (PV); **684** (L)
- Subtilisin treatment.** Properties of high-molecular-mass placental alkaline phosphatases in normal pregnancy sera **515** (OA)
- Superoxide dismutase.** Oxidative stress of vanadium-mediated oxygen free radical generation stimulated by aluminium on human erythrocytes **254** (OA)
- Synoviocytes.** Endothelin-1 production by human synoviocytes **290** (OA)
- T4 concentrations.** Falsely lowered FT4 and raised TSH concentrations in a patient with hyperthyroidism and human anti-mouse monoclonal antibodies **317** (CR)
- Tacrolimus.** Therapeutic monitoring of tacrolimus **167** (PV)
- Target Scoring System.** RIQAS scoring system **552** (L)
- Tetranectin levels.** Tetranectin levels in patients with acute myocardial infarction and their alterations during thrombolytic treatment **400** (OA)
- Therapeutic drug monitoring.** Guidelines for the interpretation of analytical toxicology results and unit of measurement conversion factors **261** (OA)
- Thrombocytopenia.** Thrombocytopenia and giant platelets without major haemorrhagic complications in a pregnant patient **678** (CR)
- Thrombolytic treatment.** Tetranectin levels in patients with acute myocardial infarction and their alterations during thrombolytic treatment **400** (OA)
- Thyroid hormones.** Autoantibodies against thyroid hormones can lead to an erroneous diagnosis and potentially harmful treatment **152** (CR), **555** (L), **556** (L)

- Thyroid stimulating hormone**, Falsely lowered FT4 and raised TSH concentrations in a patient with hyperthyroidism and human anti-mouse monoclonal antibodies **317** (CR)
- Thyrotropin**, Autoantibodies against thyroid hormones can lead to an erroneous diagnosis and potentially harmful treatment **152** (CR), **555** (L), **556** (L)
- Tibial shaft fracture**, Osteocalcin following tibial shaft fracture **324** (L)
- Total antioxidant capacity**, Total antioxidant capacity by enhanced chemiluminescence: contribution of urate **553** (L)
- Total antioxidant status**, Plasma antioxidants: evidence for a protective role against reactive oxygen species following cardiac surgery **616** (OA)
- Toxicology**, Guidelines for the interpretation of analytical toxicology results and unit of measurement conversion factors **261** (OA)
- Trace kit evaluation**, Identification of acute porphyria: evaluation of a commercial screening test for urinary porphobilinogen **726** (OA)
- Trace metal determination**, Preparation of urine samples for trace metal determination: a study with aluminium analysis by inductively coupled plasma optical emission spectrometry **245** (OA)
- Traceability**, Traceability and uncertainty in analytical measurements **371** (RA)
- Transferrin**
Carbohydrate deficient transferrin measurement **345** (PV)
Increased gamma-glutamyltransferase in hypertriglyceridaemia: the value of carbohydrate-deficient transferrin measurement **432** (SR)
Simple method for carbohydrate-deficient transferrin measurement in patients with alcohol abuse and hepato-gastrointestinal diseases **268** (OA): erratum **445**
- Transplantation**, Therapeutic monitoring of tacrolimus **167** (PV)
- Trisomy 21**
Evolution of an inhibin A ELISA method: implications for Down's syndrome screening **656** (OA)
Screening for Down's syndrome: the effect of test date on the detection rate **57** (OA)
- Triton X-100**, Properties of high-molecular-mass placental alkaline phosphatases in normal pregnancy sera **515** (OA)
- Troponin T**, Biochemical markers of acute myocardial infarction: strategies for improving their clinical usefulness **393** (OA)
- Troponins**, Cardiac troponins in patients with renal dysfunction **380** (OA)
- Tumour markers**
CA 19-9 as a marker for gastrointestinal cancers: a review **364** (RA)
Effect of benign and malignant liver disease on the tumour markers CA19-9 and CEA **99** (OA)
Pleural fluid pseudouridine in malignant and benign pleural effusions **94** (OA)
- Turbidimetric procedure**, Conversion of apolipoproteins A-I and B reference limits obtained by a turbidimetric procedure to other methods **311** (SR)
- Uncertainty**, Traceability and uncertainty in analytical measurements **371** (RA)
- Urate**, Total antioxidant capacity by enhanced chemiluminescence: contribution of urate **553** (L)
- Urea-acetic acid-Triton X-100**, Globin chains analysis: improved resolution by electrophoresis in urea-acetic acid-Triton X-100 **415** (OA)
- Urine analysis**, Urine analysis in the diagnosis of mucopolysaccharide disorders **207** (RA)
- Urine samples**, Preparation of urine samples for trace metal determination: a study with aluminium analysis by inductively coupled plasma optical emission spectrometry **245** (OA)
- Vanadium**, Oxidative stress of vanadium-mediated oxygen free radical generation stimulated by aluminium on human erythrocytes **254** (OA)
- Variation**, Biological variation of cardiac markers: analytical and clinical considerations **80** (OA), **554** (L)
- Vasorelaxant**, Distribution and expression of adrenomedullin in human gastrointestinal tissue **643** (OA)
- Very-low-density lipoprotein**, A simple method for assessing copper-mediated oxidation of very-low-density lipoprotein isolated by rapid ultracentrifugation **504** (OA)
- Watson-Schwartz test**, Identification of acute porphyria: evaluation of a commercial screening test for urinary porphobilinogen **726** (OA)
- Wilson's disease**, Wilson's disease: gall stone copper following liver transplantation **681** (CR)
- Zinc-protoporphyrin**, The ratio of erythrocyte zinc-protoporphyrin to protoporphyrin IX in disease and its significance in the mechanism of lead toxicity on haem synthesis **422** (OA)
- ZnSO₄**, Adaptation of the nitrate and Griess reaction methods for the measurement of serum nitrate plus nitrate levels **154** (L)
